College Financing Plan for Veterans/Veterans' Dependents

Supplemental Information Sheet

Academic Year 2021 - 2022

Section 1018 of Public Law 116-315, [Johnny Isakson and David P. Roe Veterans Health Care and Benefits Improvement Act of 2020](#) and VA's [Principles of Excellence Program](#) requires educational institutions to make certain disclosures to students using federal military and/or VA education benefits. To ensure compliance, we have developed the College Financing Plan, which was previously referred to as the Financial Aid Shopping Sheet, for Student Veterans/Veterans' Dependents. The College Financing Plan is a consumer tool that participating institutions use to notify students about their financial aid package. It is a standardized form that is designed to simplify the information that prospective students receive about costs and financial aid so that they can easily compare institutions and make informed decisions about where to attend.

Estimated cost including tuition and fees

The cost of tuition and fees vary for all students depending on their program and credit hour enrollment. Prospective students can view the tuition and fees for each of our programs by visiting our [Tuition and Costs](#), [Sample Tuition and Costs](#) or accessing our [Principles of Excellence](#) page. Students who file a FAFSA can use this College Financing Plan (Shopping Sheet) as a supplement to their existing financial aid award letter or these students may contact our Office of Student Accounts for a personalized estimate for net costs directly at the University.
