

Summary of Students' Evaluations of All Courses - Overall averages of all courses within a given college or school are presented
College of Business, School of Counseling, Schools of Health (Nursing, Occupational Therapy and Physical Therapy) all include both
undergraduate and graduate classes.

5=Strongly Agree to 1 = Strongly Disagree 5.00 is the best possible average score

Semester and Year	College or School	I found this course challenging and intellectually stimulating.	I received helpful feedback regarding my mastery of the course objectives.	Overall, the instructor's teaching in this course was effective.	The instructor encouraged students to share opinions or ask questions in class.	The instructor was willing to help outside of class	The instructor's communication skills (for example, presentation of material, facilitation of discussion, and clarity of expectations) were effective.	The instructor's lectures were organized and the class time was used productively.	To what extent did this course involve problem solving and critical thinking as tools for learning course content?	To what extent do you think this course required solving, and decision making skills?
