Charge to the Graduating Class	Robert A. Clark
Benediction	Sarah L. Pringle-Lewis
Recessional	Stephanie Shayne

MISSION

Husson University inspires and prepares students for professional careers in current and emerging fields within the context of an education informed by the sciences and humanities.

We achieve this career preparation by supporting and emphasizing

- Outstanding teaching.
- Scholarly contributions to one's discipline or field of expertise.
- An undergraduate and graduate curriculum that is challenging, relevant, and promotes critical thinking skills, self-confidence and strong communication skills.
- Commitment to ethical behavior and social responsibility through involvement in the world by faculty and students, administrators and staff, board members, and involved citizenship as a University.
- Lifelong learning to prepare students professionally and personally for the challenges of a constantly changing world.
- A diverse cultural and global perspective achieved through student development and experiential learning opportunities that reinforces our commitment to a strong academic community.
- Careful management and stewardship of University resources.

HISTORY

Founded in 1898 as Shaw Business College and School of Penmanship, Husson has evolved through the years and now includes the College of Business, College of Health and Pharmacy, and a College of Science and Humanities.

Boasting over 1,300 students, the College of Business remains the heart of Husson University. Degrees include accounting, audio engineering, business administration, integrated technology, criminal justice, forensic science, graphic/visual design, hospitality and tourism management, legal studies, mass communications, sport management, and video/film production; with graduate degrees in business administration, and criminal justice administration.

Founded in Bangor in 1892 as the Bangor General Hospital School of Nursing became a part of Husson in 1983 as the College of Health. Today, the College of Health and Pharmacy – and its strong base of alumni and traditions – has expanded to offer bachelors and masters degrees in nursing, and masters and doctoral programs in occupational therapy, physical therapy and pharmacy.

Within the College of Science and Humanities, behavioral science courses have evolved into academic degrees in biology, English, exercise science, health science, healthcare administration, public health, and psychology. The College also provides the general education coursework for the University. Husson has built its School of Education presence with undergraduate degrees in elementary and secondary education, and graduate degrees in clinical mental health counseling, human relations, and school counseling.

DEGREE-GRANTING AUTHORITY

Husson University is incorporated as a nonprofit, independent institution of higher education by the State of Maine. The Maine Legislature first enacted degree-granting authority for Husson in specific Bachelor of Science programs in 1953 followed by other specific degrees and the unrestricted authority to award the Associate of Science (1992), Bachelor of Science (1992), Master of Science (1993), and Honorary Doctorate (1969) degrees. In 2004, the Maine State Board of Education granted Husson the authority to award the Doctor of Physical Therapy. In 2007, the Maine State Board of Education granted Husson the authority to award the Doctor of Pharmacy.

ACADEMIC DISTINCTIONS

Based on a 4.0 grading scale, Husson University recognizes the following associate and baccalaureate academic distinctions at graduation:

Cum Laude	3.40 - 3.59
Magna Cum Laude	3.60 - 3.79
Summa Cum Laude	3.80 - 4.00

The Valedictorian is the baccalaureate graduate with the highest grade point average. The Salutatorian is the baccalaureate graduate with the second highest grade point average. The eligibility requirements for Valedictorian or Salutatorian include completing 90 credit hours at Husson University, enrolling as a full-time student, completing the degree in five years and other eligibility clarifications as set forth in the University Catalog.

ACADEMIC REGALIA

The tradition of academic regalia dates to the formation of the first European universities in the ninth century. At that time, scholarship was conducted at religious centers, and the dress of the scholar was also that of a religious cleric. Long gowns and hoods had the functional purpose of providing warmth in unheated libraries and cells. The use of the raiment continued unofficially until Oxford and Cambridge Universities permanently adopted the clerical vestments as ceremonial academic costume. This tradition spread to American colleges and universities in the late nineteenth century, when a code was set that defined the cut and style of American gowns and prescribed colors to represent the various divisions of learning. For example, golden-yellow, symbolizing the wealth of knowledge gained from scientific research, was assigned to the sciences. In accordance with tradition, Husson regalia includes a long black gown and a mortarboard with a golden-yellow tassel. Husson Masters and Doctoral graduates wear hoods referring to their division of learning: drab representing business, peacock blue for criminal justice, gold for clinical mental health counseling and human relations, apricot for nursing and nursing education, ink for occupational therapy, olive for pharmacy, teal for physical therapy, and light blue representing school counseling. A golden-yellow cord draped across the shoulders of associate and baccalaureate-level students represents their academic honors.

HONORARY DEGREE

One Hundred and Twenty-Third Commencement

Honorary degrees have been granted by colleges and universities since colonial times. These degrees are not awarded for academic achievements, but rather are awarded to honor or recognize the achievements of outstanding citizens.

Honorary degrees highlight the accomplishments of individuals in the arts, public life, education, scholarship, business, health, and the sciences. The first honorary degree was awarded at Oxford University in the 1470s. Since 1969, Husson University has recognized prominent citizens for their contributions to the community, State of Maine, nation, and world.

By virtue of the authority vested in its members, the Board of Trustees is pleased to confer the following honorary degree upon the occasion of Husson University's One Hundred and Twenty-Third Commencement.

SAUNDRA PELLETIER '91

Saundra Pelletier graduated from Caribou High School, and the New England School of Communications/Husson University. Today, she is the chief executive officer (CEO), president, and executive director of Evofem Biosciences (Nasdaq: EVFM). Previously, Pelletier served as the vice president of pharmaceuticals at Women First Healthcare. Earlier in her career, she was the corporate vice president and global franchise leader for G.D. Searle.

She is also a published author, coveted keynote speaker and moderator at key healthcare and political conferences worldwide. She appeared at the Harvard School of Public Health, the Davos World Economic Forum, and the Clinton Global Initiative, to name a few.

Designated a "New Champion for Reproductive Health" by the United Nations Foundation, Pelletier was also recognized by Athena San Diego with their "Pinnacle Award for Life Sciences" award, named 2019 "Business Woman of the Year" by the *San Diego Business Journal*, and named to *Inc.* magazine's "2020 Female Founders 100 List."
