The HSI was developed by Marie Kenney, while a student at Husson University, in consultation with Associate Professor J. Douglas Wellington. The HSI tracks and analyzes the stocks of 29 companies that are considered to have an effect on the Maine economy. These companies are either based in Maine or have an influence on the Maine economy through employment or consumer spending. This price-weighted index offers a numerical breakdown of

Maine's economy. The analysis looks into the events of the week and finds the likely reasons the index went up or down. This index and analysis help provide a better understanding of Maine's economy as well as explain significant changes in stock prices of the companies that comprise the HSI.
